

Nitasha weight loss success story

One day, I visited one of my friends and was surprised to see how slim and beautiful she looked. When I asked her, how could she lose so much weight? She replied, “I joined Bite&Diet, and it was Dietician Priyanka who helped me to lose so much weight”.

I couldn't resist and immediately took her number. I called Bite&Diet and got to know that her first consultation was free. No sooner I got connected to Dietician Priyanka. She asked me about my health, medical history, daily routine and diet habits.

After all this discussion, she told me that, “Low fiber diet and sedentary lifestyle is one of the main reasons for weight gain, in my case”. As, the cause is different for everyone.

She calculated my fat percentage and muscle mass. Within 24 hours, I received my first plan. To add some activity to my lifestyle, she suggested me to go for 10–15 mins of walking after lunch and dinner. I followed the plan with dedication and used to share my weight & diet recall daily with Dietician Priyanka.

The high fiber diet and post-meal walking helped me to lose around 10 kg in 3 months. I used to start my day early with some soaked almonds and walnuts. I completely avoided sugar for 3 months and kept my dinner light. Two precise secrets of my weight loss.

With Bite&Diet, I came to know that diet really matters a lot if you are looking for a healthy loss of weight. Diet should always be customized as everyone has different cause of weight gain. I am really thankful to Dietician Priyanka whose personalized approach and expert advice helped me to get in shape.
