

Anjali reduced her hair fall complaint with Antiaging Diet

Anjali Stays in Singapore with her family. She is very conscious about her fitness regime. She eats healthy, exercise regularly and does everything she can do to keep her fit.

But ageing is something which is very natural and she wanted Glamorous ageing. As you can see her pic and I am sure no one can guess her age.

Three months before she realised that she is gaining weight near her arms and thighs. She also had complaint of little knee pain and hairfall which may be due to menopause & ageing. So she joined Bite&Diet Antiaging program on 1st june 2021.

WHAT IS ANTIAGEING PROGRAM?

Generally female complaint for Loss of energy & Stamina, mood swings, Back pain, Knee pain, sudden weight gain, skin dullness & hairfall after menopause.

In Antiageing program we provide you the plan that helps to:

- Boost your energy & stamina
- Strengthen immunity
- Increases Bone density
- Reduce hairfall
- Increases skin glow & elasticity

As I told you she is very conscious about her health and fitness, she followed the plan very religiously. She shared with us that she is enjoying the plan because she is getting multiple food choices, variety of food items to eat & no restrictions of her favourite food.

She liked our smoothies very much and oats & quinoa dosa which was given in plan.

BERRY SMOOTHIE

Smoothies are one of the healthiest food with lots of antiageing properties. They are rich in proteins, vitamins, minerals, antioxidants and fiber depending on the ingredients added.

They are complete food. Anyone who is looking for weight loss, disease management, antigeing, hairfall or want a glowing skin should must include smoothies in their plan.

CRISPY QUONEA&OATS DOSA

Quonea & Oats dosa is rich in proten and fiber. She shared with us that she found it more crispy and delicious than regular dosa.

Many of us who don't like the taste of quonea should must try this recipe.

AT THE END OF THREE MONTHS

- ✓ She has negligible pain in her knees
- ✓ She feels more energetic
- ✓ Her hairfall has reduced
- ✓ More toned body shape
- ✓ No menopausal complaint

At last we can say that we should never ignore our health. Even a little pain in our knees if not cured earlier can make our life difficult.

Glamorous ageing is something which we all can enjoy. We just need the right guidance.

These days' Social media is providing us lots of information about nutrition and health — most of which is incorrect. Even qualified health professionals, trainers or experts who are not much focused on nutrition or don't know much about food and nutrition, are spreading misinformation about nutrition to the public, adding to the confusion.

Today, with all of these misinformation people are unhealthy than ever.

This is where we come in – we tell you the truth and provide Budget friendly individualized, nutrition-based therapies to address the underlying causes of your medical problem, disease, or dysfunction. Our main aim is :
