

I Lost Weight Despite My Thyroid Condition ...

Success story of Sarika Pant is really a motivation for those who think that they can't lose weight if they have Hypothyroid. Hypothyroidism is the disease state caused by insufficient production of thyroid hormone by the thyroid gland. Those who suffer from Hypothyroid continue to gain weight no matter what they eat or drink.

Sarika Pant is very smart, health conscious and devoted woman. She joined Bite&Diet on 21st April 2021 for weight loss. She was already doing more than 60min of yoga and walking but still losing weight was a challenge for her.

Exercise is very essential for good health. Some of the benefits of exercises are:

1. It plays a vital role in building and maintaining strong muscles and bones.
2. It can increase your energy levels.
3. It can reduce your risk of chronic disease.

4. It can provide antioxidant protection and promote blood flow, which can protect your skin and delay signs of aging.
5. It improves blood flow to the brain and helps brain health and memory.

So, at least 20mins of exercise daily is very essential for Good health. But Diet contributes 70% of your health. If your diet is wrong nothing works. So we started her Weight loss Plan.

In the beginning she was 83.4 Kg. As I already told you that she is a highly devoted woman, she followed the plan religiously without fail without any cheating. She used to share her weight, diet recall, exercise routing daily. She also used to share pics of her meals which helped us to understand her diet more precisely.

Some of the pics of her meals are:-

Do you know what kept her motivated?

She used to lose 100g daily. She defeated every challenge that came in her path and was successful in losing 8Kgs in approximately three months. She shared with us that her clothes are getting much looser now and she is getting compliments from her friends and relatives.

Happiest moment for a woman!

For those who are willing to do something even a small achievement is enough for motivation.

It was her strong will power and continuous motivation that helped her to achieve her target. And don't forget right guidance.

These days' Social media is providing us lots of information about nutrition and health — most of which is incorrect. Even qualified health professionals, trainers or experts who are not much focused on nutrition or don't know much about food and nutrition, are

spreading misinformation about nutrition to the public, adding to the confusion.

Today, with all of these misinformation people are unhealthy than ever. This is where we come in – we tell you the truth and provides you pocket friendly Nutrition Plans which will help you to not only in managing weight but also chronic diseases without any side effects.

MESSAGE FOR SARIKA PANT

One thing I would definitely like to tell you that losing weight is not a challenge for you unless you don't want to do it.

You are a person with strong will power and dedications. So keep yourself motivated. Challenges will keep coming in life but health is only our responsibility. You can reduce all your unhealthy symptoms and risk of chronic diseases if you lose at least 10% of your weight.

We are always there to support you. So, proceed further and don't stop till you reach 60Kgs.

All the Best!
