

Mr. Swarn Singh has successfully reduced his cholesterol without medicines

If you just found out that you have high cholesterol, you might be wondering that only prescription medicines can help to lower it.

Generally Drug therapy with statins is recommended as a first-line treatment for reducing cholesterol.

Statins are a usually recommended for people who have high LDL cholesterol. They work by altering the production of cholesterol in liver. Some of its side effects include muscle aches, liver and digestive problems, higher blood sugar levels and memory loss.

Mr. Swarn singh, 61year old man joined Biteandiet on Jan 2021. He was prediabetes and taking medicines for cholesterol and Blood Pressure. As a side effect of medicines his energy level was reducing and he was experiencing pain in his calf muscles.

To avoid these side effects we decided to reduce his cholesterol without medicines. We modified his lifestyle and planned a therapeutic diet for him that included various functional foods in his diet.

Functional foods are those food items that offer multiple health benefits beyond their nutritional value. They are totally safe and don't have any side effects.

His blood test report before and after joining the program are given below.

Investigation	Before joining	After six months	Normal range
F.B. Sugar	105	92	(70-110)
S. Cholesterol	160	150	(150-220)
S. Triglyceride	110	75	(140-170)
S. HDL	36	35	(30-70)
S. LDL	102	100	(30-130)
S.VLDL	22	15	(5-35)

Some of the challenges faced by him:-

- Excessive socialisation
- Stress
- Ocassional travelling

Despite all these challenges he was successful in reducing the level of cholesterol and now he don't need to take medicines at all.

High cholesterol increases the risk of heart disease and heart attacks so it is extremely important to reduce it as soon as possible. It is highly recommended to follow a heart-healthy diet and regular exercise, even if you do take statins. However, if your cholesterol is mildly or moderately high, you can lower it even without medication and prevent yourself from its side effects.
